## About me

I'm a 20-year-old graphic designer, specialized in minimalist design. I have been designing since the time I got my first laptop in 2017. I design and develop websites. I enjoy working with colors, type, illustrations, and everything in between. JavaScript is my primary programming language of choice, and I love building static sites using Eleventy.js and TailwindCSS.

## Education

### BSc Computer Science

Parvatibai Chowgule College, Margao  
2019 - 2022
