Gavin Humbert Pereira

Graphic Designer / Frontend Developer

About me

I'm a 21-year-old graphic designer, specialized in minimalist design. I have been designing since the time I got my first laptop in 2017. I design and develop websites. I enjoy working with colors, type, illustrations, and everything in between. JavaScript is my primary programming language of choice, and I love building static sites using AstroJS and TailwindCSS.

Education

BSc Computer Science
Parvatibai Chowgule College, Margao — *2019 - 2022*

HSSC - Science
MES Higher Secondary, Vasco — *2017 - 2019*
